

Annual Breakfast Meeting

Dynamics of a 100% emissions-free energy future

Presented by Ron Darnell, Senior Vice President of Public Policy for PNM

Join Ron Darnell for a discussion on the dynamics of achieving a 100% emissions-free goal. Learn about the role of PNM and the community in creating a clean and bright energy future for New Mexico. Discuss the current state of our energy mix, the realities of today's electric grid, the necessity for technological advancements, and how by working together we can transform our energy outlook.

Ron Darnell is Senior Vice President Public Policy for PNM Resources. He leads the company's regulatory administration, tribal and government affairs, corporate communications, pricing, community relations and stakeholder engagement. Ron joined PNM in 2008 from Colorado's Xcel Energy, where he was Director of Regulatory Administration South. Ron has an extensive energy industry expertise and has served on the committees with the Edison Electric Institute, American Gas Association, and Demand Response Coordinating Council. Ron sits on the board of Albuquerque Economic Development, which is dedicated to recruiting new industries and helping local companies grow to generate quality job opportunities for the Albuquerque metro area.
