Making Measurable Progress on Strategy

Presented by Adrian Faustine & Carter Jones

A presentation on making progress toward strategic goals and using measures to drive organizational success.

The presentation focuses on how to take your organization's goals and translate them into objectives and intended results that can be measured (via metrics) toward success. Adrian & Carter will cover how to ensure your measures are tying back into strategy and you are using metrics to track operations and initiatives that drive improvement.

LEARN

Presented by experts at the forefront of their field, sessions focus on skills and offer practical suggestions for applying them in real-world situations.

CERTIFICATION

Demonstrate your commitment to upholding quality standards and continued learning to earn a Quality Certificate from the UNM Anderson School of Management.

NETWORK

Meet prospective mentors, partners, and clients, and gain access to the resources that will foster your career development.

thank you **TO OUR SPONSORS**
