Non-Members: \$20/Seminar

Everyday Practical Quality Tools

Presented by Dr. Benjamin B. White

Quality Management’s objectives are based on systematizing organizational leadership, strategies, customer relationships, knowledge and information systems, employee capability and capacity, operational processes, and ultimately results. However, many times the focus on these important facets of a system overshadows some simple Quality Tools that support the daily organization routines. This seminar will present tools that increase efficiency and effectiveness.

LEARN

Presented by experts at the forefront of their field, sessions focus on skills and offers practical suggestions for applying them in real-world situations.

CERTIFICATION

Demonstrate your commitment to upholding quality standards and continued learning to earn Quality Certificate from the UNM Anderson School of Management

NETWORK

Meet prospective mentors, partners, and clients, and gain access to the resources that will foster your career development
